3. Revise the complaints and appeals process to ensure it is accessible, transparent, and adheres to principles of natural justice, with clear processes for external appeals.
4. Review and update all student support policies and procedures to ensure compliance with ESOS requirements, including orientation, pre-arrival information, welfare services, and critical incident response.
5. Conduct a full review of all policies, procedures, and documentation to identify and address any other compliance gaps, ensuring the provider can demonstrate ongoing financial viability and capacity to deliver courses.
